California

Science 2002 Lecture Series Continues

We are pleased to welcome Susan Minor, Senior Space Station Operations Engineer with NASA's Office of Space Flight, as our second **Science 2002** lecturer. Ms. Minor will discuss her role with the International Space Station, the largest and most complex international construction and research project ever undertaken. Her talk will be held **Thursday, October 25 at 7:00 p.m.** in the Amador Valley High School Playhouse, located at 1555 Santa Rita Road in Pleasanton.

Science 2002 lectures are free and seating is on a first-come basis. For more information on the series go to <http://www.llnl.gov/llnl/06news/Community/lecture.html>.

free event. More details will appear in our *November Community News*, on the Laboratory Website and in local newspapers. Mark your calendars today!

Associate Director of Engineering Leaving for Academia

Spiros Dimolitsas, Associate Director of the Laboratory's Engineering Directorate, has resigned to become Senior Vice President and Chief Administrative Officer of Georgetown University in Washington, D.C. beginning November 12. For more on Spiros' departure see *Recent Headlines* below.

New Laboratory Fire Chief

Assistant Fire Chief Randall Bradley has been selected the Laboratory's new fire chief. He succeeds fire chief-emeritus John Sharry, who will retire February 1 after nearly 20 years at the Laboratory.

Chief Bradley has more than 20 years of fire-service experience and has been at the Laboratory since 1985. In his new capacity, he will oversee 52 firefighters and other personnel which, in a typical year, respond to 1,800 emergency calls. He will also serve as the Alameda County Mutual Aid Coordinator. Congratulations Chief Bradley!

Laboratory Visitors Center and Tours

Please stop by our **Visitors Center** to learn more about the Laboratory's mission and programs. The Visitors Center is located on Greenville Road at the Eastgate entrance to the Laboratory. It is open Monday-Friday, 1-4 p.m.

For more information about the Visitors Center or tours, please call (925) 422-4599.

**The Lab's Visitors Center is open
Monday through Friday, 1 to 4 p.m.**

Lab TV Show

"Technology Today," a television program designed to help inform our neighbors about activities at both Lawrence Livermore and Sandia national laboratories, airs each Monday evening at 8:30 on the Tri-Valley's community television station, Channel 30. If you have a topic that you'd like to see discussed on "Technology Today," please contact us at (925) 423-3567.
